Chenhao Wu

86-15968146770 | g.rotrix@sjtu.edu.cn | https://github.com/G-dab

Education

Shanghai Jiao Tong University Shanghai, China
Bachelor of Engineering *Expected June 2025*

- Major in Mechanical Engineering
- Zhiyuan Honors Program
- GPA: 3.77/4.3, Ranking(12/24)
- Have taken all the honor courses provided by Honors Program which were much more challenging
- Core Course: Mathematical Analysis III 4.3/4.3, Method of mathematical Physics 4.3/4.3, Linear Algebra 4.3/4.3, University Physics 4.3/4.3, C++ Programming 4.0/4.3, Data Structure 4.3/4.3, Probability and Statistics 4.3/4.3

Experience

Design of a Twin-body Marine Robot Based on 3D Printing Technology November 2021 – May 2022
Member: Mechanical design, Control Algorithms *Mentor: Caoyang Yu*

- we proposed a twin-body underwater robot configuration, which adopts a propulsion method similar to that of a submarine, to achieve both stability and flexibility.
- Awarded as PRP gold award

Development of a Digital Twin-based In-situ Wear Testing System July 2022 – September 2023
Member: Microcontroller program development, Control software UI design *Mentor: Zhinan Zhang*

- The system can collect in-situ visual data in real-time, showing the evolution process of wear through changes in visual images. At the same time, it is equipped with a digital control platform that can dynamically display experimental results and monitor and control the experimental process.
- Awarded as a national-level innovation and entrepreneurship project

Flexible Clamp Development March 2024 – December 2024
Member: Mechanical design, motor control and sensor calibration *Mentor: Genliang Chen*

- The flexible gripper is made of flexible carbon fiber material. Strain gauges are attached to it, and its deformation is calculated using the method of spindle decomposition to achieve the flexibility of the gripper.
- A second-authored paper under review.

Internship

JAKA Robotics Division June 2024 – September 2024
Company: JAKA Robotics *Shanghai, China*

- Three-fingered dexterous hand design
- Seven axis dual-armed humanoid robot design

JAKA Robotics Intelligence Perception Department September 2024 – January 2025
Company: JAKA Robotics *Shanghai, China*

- Humanoid dual arms imitation learning algorithms design

HONORS & AWARDS

Zhiyuan Honor Scholarship | *Zhiyuan College of Shanghai Jiao Tong University* 2021 – 2024
Ruiyuan Red Shirt Talent Development Fund | *Shanghai Jiao Tong University* 2023 – 2024
Sanyou Scholarship | *Shanghai Jiao Tong University* 2024 – 2025

Technical Skills

Languages: *Python, C/C++, Matlab*
DL: *Pytorch*
personal website:*https://g-dab.github.io*
